

The Federal Communications Commission

Dear The Federal Communications Commission,

PLEASE REJECT THE FLAT FEE PROPOSAL! I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless ONLY OCCASIONALLY phone for safety, security and convenience. My 12 year old carries a pre-paid phone for emergency use only. Don't make it cost more for me to keep her safe! Big business should not pay less for their high volume usage of service PLEASE reject the proposal to move the USF collection system to a flat-fee.

Protect the rights of the the individual, they are the ones who elect you into office.

Sincerely,

Lisa Brutkiewicz
